EDUCATION

University of Houston

Bachelor of Science in Computer Science

Aug 2021 – May 2023

GPA: 3.9

Houston Community College

Associates of Science in Computer Science

Jan 2020 – Aug 2021

GPA: 4.0

- **Relevant Coursework:** Software Engineering, Data Structures, Database Systems, Computer Architecture, Digital Image Processing

EXPERIENCE

Paycom | Software Developer IV

June 2023 – Present

- Led migration of legacy modules from native JavaScript to **React + TypeScript**, increasing maintainability and reducing QA testing effort by **15%**.
- Designed and deployed an automated **cron job** system to streamline client user billing, cutting manual intervention by **30+ hours/month**.
- Enhanced monitoring and debugging workflows by integrating advanced **Splunk** logging and reporting dashboards.
- Boosted code quality and release confidence by implementing automated and unit tests with **Selenium** and **Jest**.

Paycom | Software Development Intern

May 2022 – Aug 2022

- Redesigned **Material UI** components using **React + TypeScript**, reducing refactoring overhead by **20%** and improving client-side performance metrics by **15%**.

NASA (KBR Contractor) | Software Development Intern

Jan 2022 – May 2023

- Modernized ISS mission control dashboards with **React** and **ASP.NET**, improving scalability and cutting load times by **30%**.

PROJECTS

NotDiscord | Full Stack Messaging Application

March 2025

- Built a Discord-style app with real-time messaging using **React + TypeScript**, **Node.js/Express**, and **PostgreSQL**.
- Implemented authentication, sessions, and socket connections to support direct + group messaging.
- Deployed backend to **AWS EC2** and migrated DB to **AWS RDS**.

Fuel Quote Application | Full Stack Web App

May 2023

- Delivered a quoting and transaction tracking app with **React**, **Node.js**, and **Tailwind CSS**.
- Led backend **REST API** integration with seamless frontend connection.

Other Projects

- **Digital Closet Sharing:** Fullstack React Native mobile application with authentication and payment management.
- **Music Library:** ASP.NET + Bootstrap web app with triggers and stored procedures for advanced reporting.
- **Time Tracking Dashboard:** MERN stack dashboard with REST APIs and React data visualizations.

SKILLS

Languages

JavaScript | TypeScript | C++ | Python | SQL | PHP | HTML/CSS

Frameworks/Tools

React | ReactNative | Node.js | Express | ASP.NET | Jest | Selenium | Splunk

Cloud/DevOps

AWS (EC2, RDS) | Git | Gitlab | Docker

EXTRACURRICULAR ACTIVITIES

Cougar CS | Webdev Team Leader

Jan 2022 – Dec 2022

- Mentored team members in building web apps, including a React-based Linktree clone.

National Society of Leadership and Success | Member

Sep 2020 – Dec 2020

- Attended seminars on leadership and success; participated in structured goal tracking sessions.
