PROFESSIONAL SUMMARY

Full stack Software Developer with nearly 3 years of production experience building performant React and TypeScript applications at enterprise scale. Experienced in AI-assisted development workflows, REST and GraphQL APIs, and cloud infrastructure on AWS. Known for end-to-end ownership, cross-functional collaboration, and delivering high-impact features with a strong product intuition.

EXPERIENCE

Paycom

June 2023 – May 2026

Software Developer IV · Irving, TX

- Led migration of legacy JavaScript modules to React + TypeScript across multiple high-traffic production systems, improving maintainability and reducing QA testing effort by 15%.
- Collaborated closely with product and design stakeholders to translate complex requirements into clean, testable frontend code — delivering features end-to-end from technical specification through deployment.
- Took full ownership of designing and deploying an automated cron job system that eliminated 30+ hours of manual billing work per month.
- Championed code quality through Jest and Selenium test coverage and enhanced production observability through Splunk logging and reporting dashboards.

Paycom

May 2022 – August 2022

Software Development Intern · Grapevine, TX

- Collaborated with senior engineers to redesign Material UI components using React + TypeScript, reducing refactoring overhead by 20% and improving client-side performance metrics by 15%.

NASA (KBR Contractor)

January 2022 – May 2023

Software Development Intern · Houston, TX

- Partnered with mission operations teams to modernize ISS mission control dashboards with React and ASP.NET — precision interfaces where reliability and performance were non-negotiable.

PROJECTS

SwingFlow — Personal Swing Trading Assistant [\[GitHub\]](#) [\[Live\]](#)

2025

- Built and deployed a full-stack swing trading assistant that scans a watchlist, detects high-probability setups, and delivers real-time push notifications — developed using Cursor and Claude Code as primary AI development tools throughout.
- Owned frontend end-to-end using React/Vite: dashboard overviews, symbol drill-downs, and trade detail workflows with a focus on low-friction UX and minimal design.
- Integrated Clerk for secure multi-user authentication, Supabase (Postgres) for persistence, and Polygon.io for live market data with a Node.js/Express backend.

Financial REST API [\[GitHub\]](#) [\[Live\]](#)

May 2026

- Built and deployed an async Python REST API using FastAPI integrating Alpha Vantage for live stock data, technical indicators, and multi-symbol scanning with configurable filters.
- Containerized with Docker Compose, deployed to AWS EC2 with automatic HTTPS and GitHub Actions CI/CD; implemented Redis caching and per-IP rate limiting.

Other Projects

- Music Library:** ASP.NET + Bootstrap web app with triggers and stored procedures for advanced reporting. [\[GitHub\]](#)
- Time Tracking Dashboard:** MERN stack dashboard with REST APIs and React data visualizations.

EDUCATION

University of Houston

August 2021 – May 2023

Bachelor of Science in Computer Science · GPA: 3.9 · Houston, TX

Relevant Coursework: Software Engineering, Data Structures, Database Systems, Computer Architecture, Digital Image Processing

Houston Community College

January 2020 – August 2021

Associate of Science in Computer Science · GPA: 4.0 · Houston, TX

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, C++, SQL, PHP, HTML/CSS

Frameworks & Libraries: React, React Native, Next.js, Node.js, Express, FastAPI, ASP.NET, Tailwind CSS, Vite

APIs & Data: REST, GraphQL, PostgreSQL, Redis, Supabase, WebSockets

Testing & Monitoring: Jest, Selenium, pytest, Splunk

Cloud & DevOps: AWS (EC2, RDS, S3), Docker, Docker Compose, GitHub Actions, Git, GitLab

AI Development Tools: Cursor, Claude Code

EXTRACURRICULAR ACTIVITIES

Cougar CS — Web Dev Team Leader

January 2022 – December 2022

- Led and mentored a team of developers in building web applications, fostering collaboration and technical growth.

National Society of Leadership and Success — Member

September 2020 – December 2020

- Attended leadership seminars and participated in structured goal-tracking sessions.
